The Myth of Mental Illness: Foundations of a Theory of Personal Conduct is a 1961 book by the psychiatrist Thomas Szasz, in which the author criticizes psychiatry and argues against the concept of mental illness. It received much publicity, and has become a classic, well known as an argument against the tendency of psychiatrists to label people who are "disabled by living" as "mentally ill".

Diagnosis. The ICD-10 is used around the world to diagnose people with illnesses like depression. According to the ICD-10, for a person to be diagnosed with depression, their symptoms have to last for at least two weeks. The symptoms must happen every day, or almost every day. These symptoms also have to cause problems in a person's life (like their work life, family life, social life, or ...
