

### **community participation in health pdf**

Commitment to community participation in health governance needs to be matched by allocation of resources to facilitate HUMCs and other structures created for the purpose. Service coverage needs to expand to create opportunities for the population to participate in health system governance.

### **COMMUNITY PARTICIPATION IN HEALTH SYSTEM GOVERNANCE - CEHURD**

The term "community participation" is commonly understood as the collective involvement of local people in assessing their needs and organising strategies to meet those needs.<sup>1</sup> The importance of community participation in rural health service development is uncontested.

### **The benefits of community participation in rural health**

Community participation is considered important in primary health care development and there is some evidence to suggest it results in positive health outcomes. Through a process of synthesising existing evidence for the effectiveness of community participation in terms of health outcomes we identified several conceptual areas of confusion.

### **(PDF) Community participation in rural primary health care**

Community participation is thus an essential element in emergency-management planning (see Section 3.5.4). Health promotion and community participation activities are important at all stages of the disaster management cycle, before and after disaster events, as follows: Emergency prevention and preparedness: community participation in assessing
