The evolution of Spanish biosphere reserves. Spain has many biosphere reserves, and they are very different. If we order these biosphere reserves taking into consideration their origin, territorial zoning, and date of establishment (Figure 1), we can "read" a time evolution towards an unknown fate (right side).

### **Spanish biosphere reserves as factors for conservation**

The conservation of natural ecosystems and the status of the biosphere reserve have given local communities the opportunity to maintain social welfare and to develop an economy based fundamentally on the tertiary sector but also on the primary sector and local industry.

Nature conservation in Spain. The baits are often (59.6%) put out by the owners of private game reserves to kill foxes and wolves, and so increase their rabbit and partridge populations. Between 1990 and 2003, at least 4 bears, 80 imperial eagles, 20 lammergeyers, 495 black vultures have been poisoned.

Biosphere Expeditions' support of our snow leopard conservation work here in Kyrgyzstan is crucial. With the

help of their citizen scientists, we can get so much more work done, engage with locals more and create economic incentives based on ethical, low-impact citizen science tourism.
