ICEAA: International Cost Estimating and Analysis Association

1. Cost Definitions. Cost: The total money, time, and resources associated with a purchase or activity. Fixed cost: Includes all costs that do not vary with activity for an accounting period. Fixed costs are, at any time, the inevitable costs that must be paid regardless of the level of output and of the resources used.

Overview of cost definitions and methodologies by James Ruth

For an undergraduate/graduate course in Construction Cost Analysis and Estimating offered in civil engineering, civil engineering technology, architectural engineering, and construction management programs.
