For 22 years, my dream has been to build the library of everything and make it available to everyone. I know we could charge money, but then we couldn't achieve our mission. The Internet Archive is a bargain, but we need your help. If you find our site useful, please chip in. Thank you. â€”Brewster Kahle, Founder, Internet Archive

Greasemonkey hacks - archive.org

Greasemonkey is a userscript manager made available as a Mozilla Firefox extension. It enables users to install scripts that make on-the-fly changes to web page content after or before the page is loaded in the browser (also known as augmented browsing).. The changes made to the web pages are executed every time the page is viewed, making them effectively permanent for the user running the script.
