What's New at MMM Matrices (2/27/19). Our new matrices unit, which will eventually be included as one of our extra topics in precalculus, is available. This 47-page document covers the basics of matrix operations. It contains some very interesting applications that are not usually taught at the high school level but gives students insight as to why matrices are important.

The House of Lords of the United Kingdom, in addition to having a legislative function, historically also had a judicial function. It functioned as a court of first instance for the trials of peers, for impeachment cases, and as a court of last resort within the United Kingdom. In the latter case the House's jurisdiction was essentially limited to the hearing of appeals from the lower courts.

You can show the whole year with `$ cal -y`, or use `$ cal -jy` to display Julian dates beginning with 1 on January 1 and ending on December 31 with 365 or 366 if it's a leap year. You can also figure out slightly more complicated dates with the related `ncal` command. For example, `$ ncal -e` displays the date of Easter in the current year. Like most command-line tools, the calendar tool is ...
