Limit. The term limit comes about relative to a number of topics from several different branches of mathematics. A sequence of elements in a topological space is said to have limit provided that for each neighborhood of  $x$ , there exists a natural number  $N$  so that for all  $n > N$ . This very general definition can be specialized in the event that  $X$  is a metric space, whence one says that a sequence in  $X$  has ...
