The Chevrolet 'inline 6 engine was Chevrolet's sole engine from 1929 (when it replaced their 171-cubic-inch (2.8 L) inline 4) through 1954, and was the company's base engine starting in 1955 when they added the small block V8 to the lineup. It was completely phased out in North America by 1990; in Brazil, GM held on to their fuel-injected version through the 1998 model year.
